His Honour the Speaker informed the Senate that he had received a communication from the Governor General's Secretary, in the following words:—

OFFICE OF THE GOVERNOR GENERAL'S SECRETARY,

CANADA.

OTTAWA, 31st January, 1921.

SIR,—I have the honour to inform you that His Excellency the Governor General will proceed to the Senate Chamber to open the Session of the Dominion Parliament on Monday, the 14th February, at 3 o'clock.

I have the honour to be,

Sir,

Your obedient servant,

O. M. BALFOUR, Captain,
Acting Military Secretary.

The Honourable
The Speaker of the Senate.

The Senate adjourned during pleasure.

After a while, His Excellency the Governor General having come, and being seated on the Throne,

His Honour the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House that,—It is His Excellency the Governor General's pleasure that they attend him immediately in the Senate.

Who being come, with their Speaker,

His Excellency the Governor General was pleased to open the Session by a Gracious Speech to both Houses, as follows.—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

On your return to your Parliamentary duties, I am glad to be able to congratulate you on the relative prosperity of the country and its comparative freedom from the feeling of unrest which has agitated countries not so fortunately situated. Following the conditions of expansion due to the war, a period of contraction was inevitable. Restriction of credit involving a certain limitation of production and business has been universal, but this Dominion has been less affected than other countries, and a feeling of confidence prevails. A general reduction of the cost of living has set in, and the country, save in certain limited areas, has been blessed with a bountiful harvest.

In spite of this contraction, the annual revenue of the country has been well maintained, and my advisers considered that certain taxes, imposed in part to check extravagant purchasing, had fulfilled their purpose and might be withdrawn. Accordingly, with a few exceptions, these taxes have been remitted, freeing industry and business and thus promoting employment.

Unemployment, the world-wide result of the conditions to which I have referred, though less widespread in Canada than elsewhere, has received the most anxious consideration. Of the charges for the relief of general unemployment, measures have been taken to bear a substantial share, and special measures have been taken to assist disabled and partially disabled ex-service men. These will be submitted to you for approval.

An investigation is being conducted by the Department of Labour into systems of Unemployment Insurance and Old Age Pensions.

There will be submitted to you for approval the important agreement concluded last year with the Governments of the British West Indian Colonies for the purpose of drawing still closer the trade relations between Canada and these Colonies and of improving the means of communication and intercourse.

The First Assembly of the League of Nations was recently held at Geneva. Representatives of forty-one nations, including those of Canada, met and deliberated together in a spirit of harmony that promises much for this great experiment. Much time was necessarily devoted to the work of organization, but other measures were also agreed upon which are calculated to promote stability and good will in international intercourse. Most important of these is the draft scheme for the establishment of a Permanent Court of International Justice which will be submitted to you for approval at an early date.

My advisers are convinced of the necessity for revision of the Customs tariff. In order to secure the most complete information a Committee has conducted an extensive and thorough inquiry, and has secured the views of all parties and interests in every Province. The hearings necessary for this purpose have now been completed, and the conclusions founded thereon will be submitted to you in due course. It is the opinion of my advisers that in such revision regard must be had to the necessities of revenue and as well that the principle of protection to Canadian labour and legitimate Canadian industries, including agriculture, which has prevailed for more than forty years in this country, must be consistently maintained; but that the Customs duties imposed to that end should be no higher than is essential to ensure good standards of living among our working population and to retain and make possible the normal expansion of the industries in which they find employment.

A Bill for the repeal of the Conservation Act will be submitted to you, there being provision made for carrying on the essential functions of the Commission of Conservation in the appropriate Departments of the Government. This measure will, therefore, avoid very considerable duplication of services, and permit consequent saving of expense without detriment to the public advantage.

A Bill amending the Dominion Elections Act to provide for necessary revision of the electoral lists applicable to the vote shortly to be held in the Province of Ontario respecting the Canada Temperance Act will be submitted to you.

Bills relating to Copyrights, the simplification and consolidation of the Income War Tax Act, 1917, and amending Acts, Scientific Research and other matters will be submitted to you.

Gentlemen of the House of Commons:

The accounts of the last fiscal year will be laid before you. Estimates for the next fiscal year will be submitted at an early date, making provision for the various services of government. These have been formed with a view to strict economy, having due regard to the obligations of the country and the exigencies of the public service, and any possible contraction, following the expansion of the period of the war, has been diligently sought.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In inviting your careful consideration of the important matters which will engage your attention, I pray that Divine Providence may direct and prosper all your consultations to the safety, honour, and welfare of our Sovereign and this Dominion.

His Excellency the Governor General was pleased to retire, and the House of Commons withdrew.

The Senate resumed.

The Honourable Sir James Lougheed presented to the Senate a Bill (A) intituled: "An Act to amend The Dominion Elections Act."

The said Bill was read the first time, and it was

Ordered that it be placed on the Order Paper for a Second Reading on Wednesday next.

His Honour the Speaker informed the Senate that a copy of the Speech of His Excellency the Governor General, had been left in his hands.

The same was then read by His Honour the Speaker.

On motion of the Honourable Sir James Lougheed, seconded by the Honourable Mr. Blondin, it was

Ordered, That the Speech of His Excellency the Governor General be taken into consideration to-morrow.

On motion of the Honourable Sir James Lougheed, seconded by the Honourable Mr. Blondin, it was

Ordered, That all the Senators present during the Session be appointed a Committee to consider the Orders and Customs of the Senate and Privileges of Parliament, and that the said Committee have leave to meet in the Senate Chamber when and as often as they please.

With leave of the Senate,

On motion of the Honourable Sir James Lougheed, seconded by the Honourable Mr. Robertson, it was

Ordered, That pursuant to Rule 77, the following Senators, to wit: The Honourable Messieurs Belcourt, Bostock, Daniel, Power, Robertson, Tanner, Watson, Willoughby, and the Mover, be appointed a Committee of Selection to nominate Senators to serve on the several Standing Committees during the present Session; and to report with all convenient speed the names of the Senators so nominated.

His Honour the Speaker presented to the Senate the Report of the Joint Librarians of Parliament, for the year 1920.

The same was then read by the Clerk, as follows:—

TO THE HONOURABLE THE SPEAKER OF THE SENATE.

The Joint Librarians of Parliament have the honour to submit the following report for the year 1920, during only a portion of which they have had charge of the Library.

Mr. A. D. DeCelles, General Librarian, retired on the 1st of June last, having served as Assistant Librarian for five years, and for thirty-five years as General Librarian.

Mr. Martin J. Griffin, Parliamentary Librarian, retired on the 7th of July, having been thirty-five years as Parliamentary Librarian. The present Librarians desire to record their appreciation of the assistance rendered and the information given to them on assuming office by their predecessors who have so recently terminated their long and meritorious services.

In the last Annual Report, and from time to time previously, allusion has been made to the congested state of the Library and the necessity of providing ample and safe accommodation for the thousands of volumes which now overload the shelves of the Library proper, and fill the lower storerooms and vaults. The necessity still exists, and the undersigned feel that neither the complete security of the Library nor its convenient arrangement in respect to the needs of users can be assured under present conditions.

Meanwhile, the Librarians desire to express their appreciation of the fact that two rooms at the north end of the ground floor of the new building have been assigned to the Library. One of these rooms has already been excellently fitted out by the Department of Public Works with steel shelving, and temporary relief will thus be afforded by this opportunity of conveniently placing many thousands of volumes.

A list of donations to the Library, and of Copyright Works will be submitted.

The Supplementary Catalogue embracing the books purchased since the last report is now in the hands of the printer and will shortly be submitted.

Amongst Governmental reports of special interest are the recent Official Despatches, with Maps, issued by the Government of Great Britain relating to the Jutland Battle. Several copies of these have been secured.

Amongst the items in the list of donations which may be specially noted are the papers received from the "League of Nations" comprising:

1. The Official Journal.
2. Verbatim Record of the Proceedings of the Assembly.
3. Verbatim Record of the Proceedings of Committees.
4. Documentary Correspondence submitted for consideration by the Assembly.
5. Treaty Series,—being Treaties and International engagements registered with the League.

Also a set of the Hansard of the British House of Commons owned by the Late Right Honourable Joseph Chamberlain, and covering the period of his Parliamentary career. These books were kindly given to the Canadian Government by the Right Honourable Austin Chamberlain, Chancellor of the Exchequer.

Both in Great Britain and on this continent, the increase in the price of raw material and in costs of labour compared to pre-war days have made a very marked increase in the price of books and periodicals, and added heavily to the cost of binding; and it naturally follows that with a vote barely larger than that of 1914, the range of Library purchases in 1920 was somewhat restricted.

It has been the aim of the Librarians, however, to secure and make available the works of the leading authorities on Constitutional subjects, on Sociology, Economics, History and the various questions which are specially related to the work of Parliament.

In respect to the borrowing and returning of Library books the rules laid down by Parliament are adequate and clear, but not infrequently they are more honoured in the breach than the observance. It is hardly necessary to point out that compliance with the rules is a matter of obvious justice to the many users of the Library and is to the best interests of the Library itself.

All of which is respectfully submitted.

J. de L. TACHE,
General Librarian.

MARTIN BURRELL,
Parliamentary Librarian.

LIBRARY OF PARLIAMENT,
Ottawa, February 14, 1921.

Ordered, That the same do lie on the Table.

(For list of donations to the Library of Parliament Vide Sessional Papers 1921, No. 41)

The Honourable Mr. Blondin laid on the Table:—

Report of the Postmaster General for the year ended March 31, 1920.

(Sessional Papers, 1920, No. 24.)

The Senate adjourned.

3. The Committee desire to bring to the attention of Parliament its recommendation contained in the Second Report of the Committee last Session, as follows:—

“Since Confederation it has been the practice of Parliament to pay for the printing of all departmental reports. The Joint Committee believes the time has arrived when this policy should be abandoned, and that instead each public department be required to annually prepare its printing estimates to cover all services, including the annual report; that Parliament pay only for copies of reports necessary to meet the requirements of its mailing list, and for the Sessional Papers.

“This change in practice, it is believed, will conduce to greater economy and be an incentive to the departments to watch their printing appropriations more closely. If this change be accepted by Parliament it is recommended that it be made operative for the fiscal year commencing 1st April, 1921.”

The foregoing recommendation having been approved by Parliament, effect was given thereto by Order in Council of 18th August, 1920 (P.C. 1940).

This recommendation was not intended to cover the translation services of the annual reports, and as the public departments find difficulty in determining what such services would cost them, the Committee believe the simplest method is for the translation to remain under the jurisdiction of the House of Commons, as at present, and it so recommends.

4. The Committee recommend that a letter be sent annually to each Senator and Member, beforehand, informing them that unless they return the card enclosed therewith, stating that they do not wish the Debates and bound Sessional Papers sent to their home addresses, that the same will be forwarded as soon as they are ready for distribution.

5. The Committee direct the attention of the Editorial Committee to the desirability of their seeing that the regulation is enforced against the duplication of matter in the publication of reports, other than those of a purely routine character; and recommend that blank pages be omitted from printed documents.

6. The Committee desire to direct the attention of the several departments of the Government to the fact that complaints have been received of the difficulty experienced in securing a satisfactory distribution of printed departmental documents. The Committee suggest that special pains be taken to see that public bodies, more particularly the public libraries in the larger centres of population, be given a full distribution, and that the practice of making a charge be dispensed with in this connection, as far as public documents are concerned.

7. The Committee has had under consideration the annual report of the Editorial Committee, and has pleasure in commending this branch of the public service for the excellent work it is doing. It is a great satisfaction to the Committee to know that since it proposed the creation of the Editorial Committee, there has been saved to the country the sum of over \$800,000, which would have gone in useless printing. The annual departmental reports submitted to Parliament are a tangible evidence of what the Editorial Committee has been able to accomplish, without impairing the work of any of the departments. Besides the reduction in the number of printed pages from 210,007,404 in 1916 to 40,662,680 in 1920, the half-tone illustrations in annual reports in 1916 were 9,397,865, and last year there was none.

In its annual report, reference is made by the Editorial Committee to the frequency with which Rule 74 of the House of Commons is suspended, and an instance is given where, on the representations of the Committee, an order for the printing

of half a million copies of a certain report was reduced by fifty per cent, after all public requirements had been met. The Committee realizes that occasionally there is an urgent demand for the printing of a document for the use of Parliament, as for instance the French Treaty, in regard to which Rule 74 was suspended on March 31st of the present Session, and to which there could be no objection. But many instances have occurred where orders for printing have been passed by Parliament without the Committee on Printing being consulted, and we would suggest that in every instance where it is contemplated to suspend Rule 74, the Chairman of the Committee on Printing should be notified in advance.

With reference to the recommendation contained in Report No. 2 of last Session, "that it be made an imperative order that all manuscripts of publications to be printed for the public departments or commission whose appropriation is voted by Parliament, must be referred to the Editorial Committee before action is taken upon them," the Committee desire to be understood that the widest possible interpretation is to be placed upon this recommendation. In one or two instances, the jurisdiction of the Editorial Committee has been challenged, and the Joint Committee therefore recommends that the rule as regards requisitions for all classes of printing, binding, etc., be made applicable to all officers appointed by Parliament equally as to the public departments.

All which is respectfully submitted.

SMEATON WHITE,
Chairman.

We recall that it was in the midst of the tremendous struggle from which the Empire has victoriously emerged that Your Excellency assumed office. We thankfully remember the value of your service to the Country during days of storm and stress, and we gratefully acknowledge their worth during the difficult period of consequent readjustment.

We feel that any acknowledgment of your services would be incomplete without an expression of our sense of the gracious part taken by Her Excellency the Duchess

of Devonshire, and by your family, in the varied duties attending your office. Her Excellency's name will ever recall to the people of Canada all that is dignified in an exalted station, and the remembrance of yourself and your family, everything that is lovely in private life.

In the name of the Commons, I present to Your Excellency the following Bill:—

‘An Act for granting to His Majesty certain sums of money for the public service of the financial years ending respectively the 31st March, 1921, and the 31st March, 1922.’

To this Bill I humbly request Your Excellency’s assent.”

After the Clerk had read the title of this Bill,

To this Bill the Royal Assent was pronounced by the Clerk of the Senate in the following words:—

“In His Majesty’s name, His Excellency the Governor General thanks His Loyal Subjects, accepts their benevolence, and assents to this Bill.”

After which His Excellency the Governor General was pleased to close the Fifth Session of the Thirteenth Parliament of the Dominion of Canada, with the following Speech:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I am glad to relieve you from further attendance in Parliament after a Session which has been marked by legislation of an important character.

Steps to increase the trade of the country have been taken by the ratification of commercial agreements with France and the British West Indies. It may be hoped that the latter agreement will also result in strengthening the ties which bind together His Majesty’s dominions.

Consequent on Canada’s position as a member of the League of Nations, Acts have been passed to define Canadian nationals, and to authorize the ratification and carrying into effect of the Protocol accepting the Statute for the Permanent Court of International Justice.

The attempt to arrange for joint control by the Dominion and the Province of Ontario of the levels and flow of the Lake of the Woods water system having become abortive, by reason of a Bill concurrent to The Lake of the Woods Control Act failing to pass the Legislature of Ontario, legislation has been enacted declaring certain works in that system to be for the general advantage of Canada and providing for control by the Dominion in the public interest of all parts of the country having rights therein.

A Committee on Pensions, Insurance and Re-establishment has given thorough consideration to these problems and their recommendations have been embodied in legislation which will make more adequate the assistance which the country owes to its ex-service men.

A Bill to regulate the grading of dairy produce has become law. This legislation should conduce to the more systematic and satisfactory marketing of a very important Canadian product with better results to both producer and consumer.

The Act to repeal the Conservation Act and to make provision for the carrying on by the appropriate departments of government of the necessary services hitherto conducted under the Commission of Conservation will result in a reduction of public charges which is so important at the present time.

A further step towards the solution of the problem of the National Railways has been taken in the passage of an Act by virtue of which possession and control of the Grand Trunk Railway System has been acquired and provision made for reviving the arbitration proceedings to ascertain the value of the stocks. A special committee has conducted an inquiry into certain phases of the problem of the operation of these railways.

The proposals as to revenue contained in the Appropriation Act will it is confidently hoped meet the necessities of the year with a minimum of burden on the people and on the conduct of industry.

Gentlemen of the House of Commons:

I thank you for the liberal provision you have made for the public service.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

This is the last occasion I shall have the honour of addressing you as my term of office will have expired before you meet again.

May I assure you that I shall always retain a very real affection for Canada and its people and I shall watch your progress with the greatest interest in the sure belief that an ever increasing measure of happiness and prosperity will be the lot of the Dominion.

His Honour the SPEAKER OF THE SENATE then said:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

It is HIS EXCELLENCY THE GOVERNOR GENERAL'S will and pleasure, that this Parliament be prorogued until Thursday, the 14th day of July next, to be here holden, and this Parliament is accordingly prorogued until Thursday, the 14th day of July next.
